It is very important that you arrive on time for your test.

An Echocardiogram is an ultrasound examination (Sonogram) of the heart. The exam will take approximately 45 minutes to complete.

There is no preparation required for the Echocardiogram. However, if you are scheduled for other tests on the same day, be sure to follow any and all instructions given for those exams.

The Echocardiogram will be interpreted as soon as possible and the written report will be sent to the physician who ordered the exam. Follow-up should be with the physician/office that ordered the exam.
